Pupil entitlement

All pupils in Years 8 to 13 are entitled:

- To find out about technical education qualifications and apprenticeships opportunities, as part of a careers programme which provides information on the full range of education and training options available at each transition point;
- To hear from a range of local providers about the opportunities they offer, including technical education and apprenticeships – through options events, assemblies and group discussions and taster events;
- To understand how to make applications for the full range of academic and technical courses.

For pupils of compulsory school age these encounters are mandatory and there will be a minimum of two encounters for pupils during the ‘first key phase’ (Years 8 to 9) and two encounters for pupils during the ‘second key phase’ (Years 10 to 11). For pupils in the ‘third key phase’ (Years 12 to 13), particularly those that have not yet decided on their next steps, there are two more provider encounters available during this period, which are optional for pupils to attend.

These provider encounters will be scheduled during the main school hours and the provider will be given a reasonable amount of time to, as a minimum:

- Share information about both the provider and the approved technical education qualification and apprenticeships that the provider offers;
- Explain what career routes those options could lead to;
- Provide insights into what it might be like to learn or train with that provider (including the opportunity to meet staff and pupils from the provider);
- Answer questions from pupils.

Meaningful provider encounters

One encounter is defined as one meeting/session between pupils and one provider.

Meaningful online engagement is also an option, and we are open to providers that are able to provide live online engagement with our pupils.

Previous providers

In previous years, we have invited the following providers from the local area to speak to our pupils:

- Stamford College;
- University Academy Holbeach;
- Steadfast Training, Spalding;

- Universities.
