SENDCo:	Mrs L HEBBLEWHITE
SCHOOL ADMINISTRATOR:	Mrs J KNIGHT (Admissions Y7-11)
HEAD OF SIXTH FORM:	Mrs F HAUNCH
CAREERS LEADER	Mrs D BUSHELL
LINK GOVERNORS:	Mrs D MULLEY (Chair Standards Committee) Mr E FRAGALE (Chair Pupil Support Committee)
DATE AGREED:	September 2020
REVIEW FREQUENCY:	Annually

Lampada Vitae Tradimus – Hand on the Lamp of Life

At Spalding High School, we seek to make education engaging, challenging, informative and wide ranging. We aim to develop the whole person and to encourage respect for individuals and for the environment. We aspire that at the end of their time with us, all of our students are best placed to pursue their chosen progression route. Our curriculum is the implementation of that intent and based on our ambitious and high quality educational provision.

Section 1: Introduction

- 1.1 At Spalding High School, our mission is to make education engaging, challenging, informative and wide ranging. We aim to develop the whole person and to encourage respect for individuals and for the environment. Our vision is to create a curriculum that stretches and challenges our students in addition to developing the skills of application-based learning and a questioning mind.
- 1.2 We aim to develop a strong moral compass, respect for religious values and tolerance. We aim for all of our students to understand the world in which they live and the interdependence of individuals, groups and nations.
- 1.3 We aim to ensure that all students use their ability, develop their potential and make as much progress as possible.
- 1.4 We aim to ensure that all students have equal access to facilities and opportunities for learning and for personal development and that, the curriculum and all school documents are free from discrimination and stereotyping.
- 1.5 These are the things that are important to us in our School:
 - To recognise that everyone at our School has the ability to achieve. We all have gifts and talents.
 - To safeguard each other's physical and emotional well-being in order for us all to feel safe, confident and supported.
 - To be honest, trustworthy, respectful, courteous, friendly and kind.
 - To be reflective and resilient and value the importance of perseverance.
 - To inspire, challenge and help each other and recognise that reciprocity is an essential life skill.
 - To strive for excellence in all that we do and to develop the confidence and resourcefulness to reach beyond what we perceive as our own limitations.
 - To celebrate, promote and value each other's achievements as much as our own, be they academic, creative, sporting or charitable.
 - To value the contribution of each individual member of our School community and recognise, respect and celebrate both diversity and collectiveness.
 - To help us all to make decisions about our lives and our futures.
 - To champion respect for our environment both within our School and beyond.
 - To work proactively and collaboratively with parents/carers and our wider community.
 - To build friendships that in some cases might last us a lifetime.
- 1.6 Each subject area has their Curriculum Map for each year group on their departmental pages on the School website. The Curriculum Map gives more detail of topics, sequencing and assessments than are covered within this policy. The department areas of the website also contain Department on a Page documents which give information about staffing, resourcing, curriculum intent, implementation and impact. There are also hyperlinks to examination board specifications for GCSE and A Level (and equivalent) courses.
- 1.7 Our curriculum during lockdown and the re-opening of school in September 2020 remains broad, balanced and challenging. Students have access to subject specialist teachers and all of their subjects whilst working within the health and safety measures explained in our SHS Covid Secure Risk Assessments (School website / Covid-19 folder). During the academic year 2020/21 staff will modify their curriculum provision to identify and address misconceptions and gaps in understanding. Teaching and Learning has been adapted to support those self-isolating and in preparation for any further local or national lockdowns we might experience. Due to the current restrictions for PE, all students (Y7-11) have two practical lessons per fortnight and for the short term, two PE lessons have been allocated to English and Mathematics. These will return to core PE as restrictions are lifted.

Section 2: Years 7 & 8

- 2.1 Students who enter Year 7 are allocated to form groups without reference to their ability and all subjects with the exception of Mathematics are taught in mixed ability classes.
- 2.2 The curriculum for Year 7 students is as follows:
English, Mathematics, French or German*, Science, Religious Education, Physical Education, History, Geography, Art & Design, Drama, Food and Nutrition, Textiles technology, Product Design technology, Music, Computer Science, Personal, Social Health & Careers Education (PSHCE), Relationship & Sex Education (RSE). The 2020 (Y7) entry have two classes of German and three of French. All students are expected to continue with at least one language to GCSE as part of the SHS Standard Core Curriculum.
- 2.3 All subjects studied in Year 7 are continued in Year 8 and in addition, students study Latin. Citizenship is delivered through Personal, Social, Health, Careers Education (PSHCE) and RE (which are both part of our Standard Core Curriculum until the end of Y11). Personal Development (PSHCE, RSE & RE) and Careers are taught in the Sixth Form.
- 2.4 In the Spring of Year 8 students are supported by School and home to make decisions about some elements of the curriculum they study for Year 9. In recent year's students and parents have shared concerns about the number of subjects studied in Y9 and the amount of homework and anxiety caused. This, in addition to the academic ability of our students, the new GCSE's, that eight subjects commence their GCSE schemes in Year 9 and comprehensive trends in how and what our students opt for in Key Stage 4 enables us to allow them to reduce the number of subjects studied whilst retaining a broad and balanced curriculum.
- 2.5 In preparation for Year 9, Year 8 students elect to study two of the three arts subjects (Art and Design, Drama and Music); two of the three technology subjects (Food & Nutrition, Product Design, Textiles). In Year 8, students will also study Latin.
- 2.6 Due to the current pandemic Year 7 and 8 have the majority of their lessons in their form base room to reduce the need for movement and to ensure specialist rooms capacity for examination groups. Specialist teachers teach their subjects in both the form room and on occasion in specialist rooms.

Section 3: Year 9

- 3.1 Year 9 is a natural extension to the work studied in Year 7 and 8. Schemes of learning are carefully sequenced in each subject in order to develop and deepen knowledge, understanding and learning. This flows very naturally into the extended higher order level work needed for GCSE studies. Our students are committed, confident, curious and highly motivated. Our curriculum reflects that.
- 3.2 Students commence their GCSE studies in: English Language, English Literature, Mathematics, German/French, Latin, Biology, Chemistry, Physics and Religious Studies. Students are placed in sets for English, Mathematics, Biology, Chemistry and Physics.
- 3.3 PSHCE, RSE, Geography, History, Computer Science and PE remain part of the curriculum. In addition, students continue to study the subjects they elected, two of the arts and two of the technologies.
- 3.4 In the spring term, the year group follow the options process and make further decisions regarding their chosen course of study for Years 10 and 11.
- 3.5 The option process includes a decision between student, parent and staff regarding separate Sciences at GCSE or the Combined Science course. This is not an ability-based decision as all of our students are capable of the triple sciences.
- 3.6 As Year 9 have begun their GCSE level work in most subjects, they have more lessons in specialist rooms than Year 7 and 8.

Section 4: Years 10 & 11 – The SHS Standard Core Curriculum

- 4.1 The compulsory subjects for Years 10 & 11 are English Language, English Literature, Mathematics, Biology, Chemistry, Physics, a language (for the great majority this will be their designated language studied since Y7), Religious Studies and Geography or History (some use an option choice and study both).
- 4.2 Physical Education, PSHCE, RSE and cross-curricular ICT form our non-examined curriculum. The remaining GCSE examined course options for students are kept constantly under review but, in 2020-2021, are likely to include the following subjects:
Art and Design, Business, Computer Science, Drama, Food & Nutrition, French, Geography, German, Spanish, History, Latin, Music, Physical Education, Design Technology (Resistant Materials) or Design Technology (Textiles).
- 4.3 In Years 7 to 11 students have a total of 25 hours of teaching time per week. The recommended minimum, set out in Department for Education Circular 7/90, for students in years 7 to 11 is 24 hrs per week.
- 4.4 As Year 10 have begun their GCSE level work in all subjects, they have more lessons in specialist rooms than Y7-Y9.

Section 5: Careers Education

- 5.1 The current programme at Spalding High School has been developed using the ACEG framework for work related education (ACEG 2012), Section 42A and Section 45A of the 1997 Education Act and in response to the Department for Education statutory guidance “Careers guidance and inspiration in Schools” (March 2015). *It is currently under review following the January 2018 updated guidance.*
- 5.2 Careers Education at Spalding High School is so important to us that it is delivered to every student from Year 7 through to Year 13. In Years 7 – 11 it is taught through the PSHCE Programme and through dedicated careers lessons in the Sixth Form.
- 5.3 The careers programme aims to prepare young people for the opportunities, responsibilities and experiences of life, so that they can make and implement well-informed and realistic decisions about their future. Students are also encouraged to take part in enrichment activities such as work experience, enterprise activities, careers fairs, university visits and attend talks by visiting speakers and engage with our independent careers officer.
- 5.4 See our Careers Policy on the School website, which also includes details of the programme of study for each year group.
- 5.5 Due to current restrictions brought about the Covid-19 pandemic, the careers programme has been modified due to fewer visitors in school and work experience has been suspended.

Section 6: Citizenship, British Values (BV) and Social, Moral, Spiritual & Cultural (SMSC) Education & Cultural Capital (CC)

- 6.1 Citizenship, BV, SMSC & CC are fully integrated parts of our School ethos and community. They are not “bolt on” additions to what we do but a fundamental part of what we stand for and believe in.
- 6.2 These elements of our School are engendered not just within our taught curriculum but also within our extensive extra-curriculum provision, clubs, trips and activities. Where there are barriers to engagement, we proactively seek to remove them.

Section 7: Religious Education

- 7.1 In all years, Religious Education (which is non-denominational) and attendance at assembly, which contains hymns and moral themes, are compulsory. However, if parents wish to exercise their right to withdraw their child from either or both, then they must consult with the Headmistress.
- 7.2 Religious Education is more than the study of the world's religions. It is the study of human ethics and moral responsibilities and is therefore both relevant and important to our School aims and curriculum.
- 7.3 We deliver the Lincolnshire Agreed Syllabus for Religious Education.
- 7.4 See our Collective Worship Policy for further information.
- 7.5 Due to the current restrictions brought about by the Covid-19 pandemic, assemblies are taking place at year group and form group level for the foreseeable future.

Section 8: Relationship & Sex Education (RSE)

- 8.1 Spalding High School believes in the partnership between caring adults – governors, staff and parents, to ensure sensitive support for children and young people as they grow and mature in a challenging world.
- 8.2 The School provides a setting in which young people can be offered appropriate teaching about RSE. The purpose is to help young people prepare for adult life by supporting them through their physical, emotional and moral development, and helping them to understand themselves, respect for others, and form and sustain healthy relationships.
- 8.3 RSE is taught from Y7-13 and has been developed from the recommendations identified by the DfE Sex and Relationship Education Guidance (2000) and the 'Policy Review Statement on Sex and Relationship Education' (2017). It is not taught in isolation but as part of the wider PSHCE and Citizenship programmes. Aspects of the course are also taught in Science and Religious Education lessons.
It is currently under review in light of the 2021 new orders.
- 8.4 Parents currently have a right to withdraw their children from all, or part, of the RSE programme provided at the School, except for those parts included in the statutory National Curriculum. Any parent who wishes to do so should contact the Headmistress. Parents can be reassured, however, that the RSE programme at Spalding High School has been designed so that it will complement and support their role as parents and that we offer opportunities for parents who wish to actively involve themselves in the determination of the School's policy.
- 8.5 See our RSE Policy on the School website for further information.

Section 9: Drugs Education

- 9.1 Spalding High School strongly opposes the misuse of both drugs and alcohol by all members of the School community and the illegal possession or supply of these substances. We are committed to the health and safety of our students and will take steps to safeguard their well-being.
- 9.2 Students are involved in a drugs education programme as part of their PSHCE and Science curricula.
- 9.3 Please see our Drugs and Prohibited Substances Policy for further information.

Section 10: Special Educational Needs & Disabilities (SEND)

- 10.1 We have a whole-school approach to the provision for special educational needs and disabilities. With the support of the SENDCo, all teachers respond appropriately to the diverse learning needs of our students. Our commitment is to do everything in our power to remove barriers to learning and participation.
- 10.2 Resources are used efficiently and effectively for the benefit of students thereby enabling them to move towards achieving their potential.
- 10.3 Students (where appropriate) and parents are fully informed and involved in working with the School as programmes of study are implemented. When necessary, the SENDCo maintains co-operative and constructive working relationships with a range of external agencies.
- 10.4 We follow the SEND Code of Practice which provides a clear framework for early identification, assessment and meeting of students' individual needs. We also fulfil our responsibilities under the SEN Disability Act 2001, Special Educational Needs and Disability Regulations 2014 and Equality Act 2010.
- 10.5 Parents who would like further details or feel any cause for concern about their daughter or son should, in the first instance, contact the SENDCo at the school.

Section 11: English as an Additional Language (EAL)

- 11.1 It is acknowledged that students with a community first language other than English do not have special educational needs in the accepted sense but may require additional provision.
- 11.2 Students with EAL will be identified from the information gathered from primary school, parents and the student themselves. The Head of Main School, Head of Sixth Form and SENDCo will monitor all new entrants.
- 11.3 Staff will be aware of students with English as an additional language and will ensure teaching and learning is appropriate to each student's needs. The School is committed to the development of identification and tracking systems in order to ensure attainment at a level appropriate to ability and to prevent under-achievement.

Section 12: Sport and Physical Education

- 12.1 PE is a compulsory part of the school curriculum in every year group from Y7 to Y13. Our aim is to engage students and promote lifelong physical activity and fitness.
- 12.2 At Spalding High, we provide sporting opportunities for all students of all abilities, through a wide range of extra-curricular clubs, sporting festivals, house matches, leadership opportunities and interschool competitions.
- 12.3 We are extremely proud of our success in sport, both at a local level and nationally. We have teams in a variety of sports including netball, hockey, football, tennis, rounders, cricket, gymnastics, athletics, horse riding, trampolining, dance, basketball and indoor rowing.
- 12.4 We encourage healthy lifestyles, allow students to use our well-equipped fitness suite at lunchtimes and set fitness based challenges for students.
- 12.5 Please see 1.7. As restrictions for team sports and equipment are lifted, we will increase our core PE to normal levels. The PE curriculum has been adapted to deliver sports and activities that are currently permitted.

Section 13: Able, Gifted and Talented (A, G&T)

- 13.1 All of the students attending SHS are drawn from the top 25% of the academic cohort for Lincolnshire and the surrounding catchment. As a grammar school our students are all “able” and many are gifted and talented in particular fields.

Section 14: The Sixth Form

- 14.1 Spalding High School Sixth Form is open to students from any school and offers a wide range of A level and A level equivalent subjects. Students also participate in our enrichment curriculum, Mindset and MOOC courses.
- 14.2 Admission to the Sixth Form is subject to general entry requirements and in some cases, subject specific requirements.
- 14.3 Please see our Sixth Form prospectus for full details of both the Sixth Form and our admission requirements.
