

## Coronavirus (COVID-19) catch-up premium

The government COVID-19 catch-up premium has been established to mitigate the effects of the unique disruption caused by coronavirus. The grant will only be available for the 2020-2021 academic year.

### Allocation

£80 for each pupil in Years 7-11 in the October 2019 school census.

Spalding High School allocation **£59,586.65**

### Use of funds

Schools should use this funding for specific activities to support their pupils to catch up for lost teaching over the previous months, in line with [the guidance on curriculum expectations](#) for the next academic year. Schools have the flexibility to spend their funding in the best way for their cohort and circumstances.

To support schools to make the best use of the funding, the EEF has published a support guide:

<https://educationendowmentfoundation.org.uk/covid-19-resources/covid-19-support-guide-for-schools/#nav-covid-19-supportguide-for-schools1>

A summary of their best practice is included in Appendix A at the end:

## SHS CATCH UP (PLANNED AND ACTUAL EXPENDITURE SUBJECT TO ONGOING REVIEW AND CHANGE)

The National Lockdown and partial school closure have meant we have not been able to implement the spending entirely as we had hoped. However, student progress will be monitored throughout the year as the national situation changes and we will continue to provide appropriate support through the funding as appropriate to the benefit of our students.
