

## Work experience, industry conferences and networking opportunities

January 2023

Dear parents/carers and students

We would like to bring to your attention several insight events, training, and work experience opportunities available over the coming weeks and months.

Work experience allows a student to learn more about a particular industry and network with people who work in the industry they are interested in. They will be able to use and develop the skills employers are looking for and provide evidence of these skills for their CV or Personal Statement.
